General Manager

PRIM-SPA, PYLSA, GANCEDO AND COMPANY WE, WORKING TOGETHER

Prim-Spa, PYLSA, Tapicerias Gancedo and Company We, put their faith on each other this 2011 to work together combining experience, quality and service vocation towards our clients.

These companies concluded the collaborative partnership the last month, becoming one of the most complete manufacturers in the hotel sector. The main reason of this collaboration is to provide a best services and prices to our customers.

Prim-Spa with over 150 years wellness and spa experience, Pedro y Lopez (PYLSA) with more than 50 years in the hospitality industry and Tapicerias Gancedo, specialized since 1945 in creative designs textiles, will collaborate on the continuous improvement which Company We is constantly looking for.

The results must be the supply of their services as unique experiences based on the care of our customers, taking into account all aspects and concepts which are implicit.

VACATION CLUB FRS and FES RECEIVE GOLD CROWN AWARD

In May, Fuerte Rompido Suites and Fuerte Estepona Suites have been awarded by the Gold Crown Award. This award is given by Resort Condominiums International (RCI), a global leader in vacation exchange. The high quality services and amenities of FRS and FES Vacation Club are the most remarked features by RCI. This prize is characterized by being given to the best developments and Fuerte Estepona Suites had the pleasure to be recognized by RCI on its first running year.

on the quality services with full dedication and the utmost commitment.

Isabel García Fuerte Group's President receiving the award.

Our team's challenge is to maintain and make constant improvements

WE-NEWS

WE-EQUIP AND BUCHINGER CLINIC'S EQUIPMENT

The exclusive Buchinger Marbella clinic is a medical institution based on the prevention, treatment and cure of illnesses related to our modern-day-life-style.

Company We is proud of the trust that Buchinger Clinic put on us for its equipment's improvement.

The outcome has been more than positive, based on the expansion, redesign and modernization of its facilities/installations.

SHOWROOM IN TANGIER, MORROCO

Last June, CITMA organized the "Architect's meeting day" in Tangier, Morocco. Company We participated very successfully in the event in order to strengthen the actual and make new possible relationships and partnerships with our neighboring country.

We-Design / We- Equip's manager in Tangier.

NEW TELEMETRY SYSTEM FOR ELECTRICITY METERS FOR SAVINGS BY WE RESOLVE TEAM

Last October We-Resolve team launched and sett off electricity meters readings in the hotels from the chain Fuerte Hoteles. We-Resolve team works providing complete maintenance services to El Fuerte Hotels.

This system is based on a software application which allows you to connect via modem to the various counters of the various supply points to unload from them the energy and power load curves.

Moreover, the system allows you to: form the consumption's deviation's alarms from the forecasted consumption and loaded into the system; mail these alarms to the predetermined people responsible for the monitoring.

The consumption's forecast made is based on the monthly occupancy rate provided by the operation of hotels.

Below is the report type which the system sends through the email alarm deviation in consumption

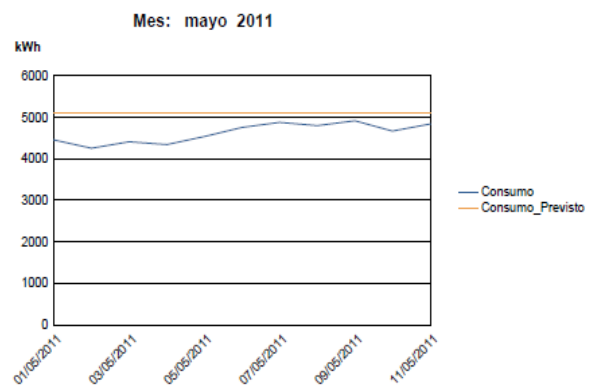

Tabla: refleja desviaciones consumo previsto
